DETAILED ACTION

1. This Office Action is in response to the Amendments filed August 2nd, 2007 regarding Application 10/517,455.

Allowable Subject Matter

2. Claims 1 – 12 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, the allowability resides in the overall structure of the device as recited in amended, independent claim 1 and at least in part because the second DC voltage as a second output of the circuit is to a controller of the first converter for controlling the first converter.

The aforementioned limitations in combination with all remaining limitations of claim 1 are believed to render said claim 1 and all claims dependent therefrom, 2 thru 12, patentable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
